FROM

H. E. M. JAMES, ESQUIRE,
Commissioner, N. D.;

To

JOHN NUGENT, ESQUIRE,
Chief Secretary to Government,
Revenue Department, Bombay.

Ahmedabad, 30th November 1890.

SIR,

I have the honour to submit the annual reports as per margin of the Presidents, District Local Boards, in this Division on the administration of the several Boards for the year ending 31st March 1890, together with the Statements I to IV prescribed in Government Resolution No. 779, dated 30th January last.

Ahmedabad Collector's No. 522, dated 12th August 1890.
Kaira Collector's No. 392, dated 19th August 1890.
Panch Mahâls Collector's No. 414, dated 22nd August 1890.
Broach Collector's No. 188, dated 26th August 1890.
Surat Collector's No. 845, dated 14th do. do.
Thâna Collector's No. 7007 of 2nd September 1890.

2. Statements I to IV, showing district and divisional totals, have been compiled in my office and forwarded to the Compiler, General Administration Report, who has been requested to submit them to Government as they form appendices to this report.

3. In compliance with the instructions of Government in their Resolution cited in paragraph 1, the Presidents have in their reports confined their remarks to the elucidation of the figures in the Statements I to IV, and, as these contain full explanation of all items of receipts and expenditure, it is unnecessary for me to repeat them. I will, therefore, merely submit a few general remarks.

STATEMENT I.

4. There are six District Local Boards in the Division and all of them are presided over by official Presidents, viz., the Collector of the district. There are also 39 Táluka Local Boards, presided over by the Assistant and District Deputy Collectors in charge of the tálukas. The total number of members constituting the several Boards (District and Tálukas) is 727 of which 391 are nominated, 325 elected and 11 *ex-officio*. Of these 186 are official and 541 non-official members. The *ex-officio* members belong to the Panch Mahâls, where, owing to the comparatively backward condition of the people, the elective franchise has not been introduced in that district, and the constitution of the Board is at present in accordance with the notification published under Government Resolution No. 2154, dated 20th June 1884.

5. The total number of meetings held during the year is 248, and the following table shows the average attendance of official and non-official members in each district:—

Districts.	Number of meetings.	Number of Members.			Average attendance at Meetings.		
		Official.	Non-official.	Total.	Official.	Non-official.	Total.
Ahmedabad	53	50	97	147	2·76	4·79	7·55

Thâna	63	31	154	185	1·7	6·6	7·5
Total ...	248	186	541	727	...	...	...

6. The District Boards in Thána and Surat held only two meetings, and in the Panch Mahâls 3, while in Ahmedabad 6 meetings were found necessary, and in Kaira and Broach 5 and 4 respectively. The Táluka Local Boards appear to have met more frequently, especially in the Thána, Surat and Ahmedabad Districts The attendance on the whole cannot be regarded as satisfactory. In one district it is stated that 18 members did not attend a single meeting and the remark made as regards another district that members do not take as much interest as they might do is, it is found, very generally applicable.

STATEMENT II.

7. The year opened with a balance of Rs. 6,97,419 at the close of last year, while the receipts during the year amounted to Rs. 11,56,435. The total amount for expenditure was thus Rs. 18,53,854. The principal items from which the income was derived are as under :—

12. As this is the first report on Local Boards' administration in the form prescribed by Government, no comparison can conveniently be made with the figures of the previous year. A large sum (Rs. 4,53,403) has been expended on the construction and repair of communications. The more important of the roads under construction during the year were the one from Ahmedabad to Báreja in the Ahmedabad District, and the roads from Bhiwndi to Váda, Pálghar to Manor and Kalyán to Dahisar in the Thána District. The metalling of the roads from Surat to Sachín and Olpád to Ránder, and the re-metalling of the Godhra-Dohad road, were taken in hand during the year. In Broach the important bridge over the Dhádhar was in progress, and it is expected that it will shortly be completed. In the Kaira District a low-level bridge over the Shedi river on the Páli and Bálásinor road was constructed. A fair proportion of the income, amounting to Rs. 1,35,361, was spent on water-supply. 191 new wells and 16 new tanks were constructed and 234 tanks and wells were repaired and improved. With regard to works for the improvement of sanitation very little has been done except in the direction of water-supply.

13. The closing balance at the end of the year amounted to Rs. 6,97,841. The Local Boards are, as Government is aware, required to maintain a suffi-

ciently large balance to prevent their overdrawing their account with the Government Treasury.

14. The administration of the Local Boards was on the whole satisfactory; but it would be more so if the non-official members on the Boards attended the meetings regularly and took a more active and intelligent interest in their duties and in the execution of the Local Boards' works. In this respect there is great room for improvement.

15. As required by paragraph 3 of Government Resolution No. 779, dated 30th January last, a note by each Executive Engineer in the districts of this Division, showing the original cost, mileage and present condition of all Local Fund roads in charge, is appended.

16. It will be observed that the reports are purely statistical. The working of the Boards and the outcome of the expenditure is separately criticised in the Collectors' general administration reports.

I have the honour to be,
Sir,
Your most obedient Servant,
H. E. M. JAMES,
Commissioner N. D.

No. $\frac{R}{5271}$ OF 1890.

FROM

G. F. M. GRANT, ESQUIRE,
Commissioner, C. D.;

To

THE CHIEF SECRETARY TO GOVERNMENT,
Revenue Department.

Poona, 14th November 1890.

SIR,

In compliance with Government Resolution No. 779, dated 30th January 1890, I have the honour to report on the administration of the Local Boards in the Central Division during the year 1889-90.

2. The statistical statements mentioned below, prescribed by the Government of India, have been forwarded to the Compiler of the General Administration Report:—

I.—Constitution of the Boards.
II.—Receipts of the Boards.
III.—Expenditure of the Boards.
IV.—Sanitary Improvements.

STATEMENT I.

3. The Boards are constituted under Bombay Act I of 1884, and are of two classes, District and Táluka Local Boards. Of the former there are 6 and of the latter 65. There were 1,198 members serving on the various Boards, of whom 6 were *ex-officio*, 634 nominated and 558 elected members. The elective franchise has been extended to all districts and tálukas in the Division, except Peint Táluka in the Násik District, where it has not been deemed expedient to grant it owing to the backward condition of the people. Of the total number of members, 280 were officials and 916 non-officials,—one seat on the Násik District, and another on the Násik Táluka, Local Board being vacant at the close of the year. The number of European and Eurasian members was 76 and that of natives 1,120.

4. Comparing the figures of average attendance with the number of members, official and non-official, on the several Boards, it appears that, in the Ahmednagar District, the attendance of the non-official members of the District Board was far from satisfactory. Out of a total of 20 non-official members 6 only, on an average, attended meetings. As regards Táluka Boards also, the attendance of non-official members, in the instances noted in the margin, fell short of what is requisite. Official members have acquitted themselves fairly, except in the case of the Táluka Boards of Nagar, Párner and Shevgaon, in each of which the average attendance fell short of one-half their total number.

1. Ráhuri.
2. Kopargaon.
3. Sangamner.
4. Shrígonda.
5. Jámkhed.

5. In the district of Khándesh also, non-official members failed to show greater activity than in Ahmednagar. Out of a total number of 26 non-official members on the District Board, not more than 8, on an average, attended the meetings held. As regards Táluka Boards, the attendance of non-official members was unsatisfactory in respect of the Boards marginally noted, especially the three last mentioned. The official members also were less active than could be wished in attending such meetings. There were 7 official members on the Pimpalner Táluka Board; and the average attendance at meetings was less than one. Similarly, not more than one member out of a total of 6 attended, on the average, in the case of the Táluka Boards of Taloda and Sháhádá. Remarks of a similar character are applicable in the case of the Táluka Boards of Nandurbár, Chopda and Sávda. It may be noted that most of these tálukas are situated in the west and north of Khándesh—an outlying por-

2. Páchora.
3. Nandurbár.
4. Sávda.
5. Bhusával.
6. Jalgaon.
7. Jámner.

tion of the district which perhaps requires greater and stricter supervision on that account. The charges, however, in Khándesh are extensive, and locomotion in such localities difficult. The Collector of Khándesh remarks in his report:—"The attendance of officials at the meetings is not in all tálukas satisfactory. The frequent changes of officers will account for the low average attendance of official members in some tálukas. On the whole, the figures show that the Boards take interest in their work."

6. The attendance of both official and non-official members was satisfactory in the case of the Poona District, except perhaps in respect of the Táluka Boards of Sirúr and Mával. The number of non-official members in Sirúr was 8, but of these only 2 members attended on the average. In the case of the Mával Board, the official members were perhaps unavoidably slack in attendance; these were 2, and the average attendance is only ·2.

7. In Sátára, the members of the District Board, both official and non-official, showed a creditable amount of activity as regards attendance. The same cannot, however, be said of the members of some of the Táluka Boards, where the frequent absence of official members is specially notable. A reference to the figures shown against the Táluka Boards noted in the margin will bear out the above remark.

1. Sátára.
2. Karád.
3. Válva.
4. Wái.
5. Jávli.
6. Pátan.
7. Tásgaon.

8. The figures in the case of the Sholápur District show fairly satisfactory attendance on the part of both official and non-official members.

9. The attendance of the official members in the Násik District was satisfactory both as regards District and Táluka Boards. The non-official members of the District Board were, however, far from active in this respect—average attendance being only 6 out of a total of 22 members.

STATEMENT II.

10. The income for the year from all sources was Rs. 12,74,953-6-0, which, when added to the closing balance of the last year (Rs. 6,26,729-9-9), gave a total of Rs. 19,01,682-15-9. The "local rate," from which the largest share of income was derived, represents the cess levied under Bombay Act III of 1869. The table given below shows the receipts under various 'heads':—

17. The Collector of Násik makes the following remarks :—"The statement is sufficiently explicit to require no further elucidation. There are, however, a few matters which require explanation. Under receipts under Cattle Trespass Act of the Igatpuri Táluka Local Board, there is a minus receipt of Rs. 106-11-0 owing to the expenditure in connection with the cattle-pounds in that táluka being in excess of receipts by that amount. This item has, therefore, been deducted from the total receipts of the Board and from the grand total for the whole district. Under "XXI.—Scientific and other Minor Departments," there is an income of Rs. 93-6-5 of the Niphád Táluka Board; it is on account of ground rent realized at the Khandoba's Fair held every year at Naitale, in Niphad Táluka. Under "25.—Miscellaneous," the amount of Rs. 45 shown against the District Local Board is on account of the moiety of the sale-proceeds of a stallion which was found useless. It is not clear from the Collector's statement under what head receipts from tolls on roads and bridges have been included.

STATEMENT III.

XLV.—Civil Works in charge of Public Works Officers.—Expenditure incurred and works executed by the Government Executive Engineer are shown against the District Local Board.

Rs. 905 shown under "XXIV.—Medical" against "Hospitals and Dispensaries" are on account of grants to dispensaries, and Rs. 905-14-0 shown as sanitation charges are on account of sweeping and cow-dunging dharmsháláš. Rs. 2,160-14-3 under "XXVI.—Scientific and other Minor Departments" represents the cost of maintenance of the agricultural class at Sholápur. The item of Rs. 500 shown as "Contribution to Provincial" is on account of grant to the Civil Hospital at Sholápur.

24. Out of Rs. 3,785-2-3 shown in the Násik District under "Miscellaneous" subordinate to "XXII.—Education," Rs. 3,298-15-9 are on account of miscellaneous contingencies and Rs. 486-2-6 on account of prizes. The expenditure under this head by the Táluka Boards was on account of the construction of new dharmsháláš, chávdis, additions and alterations to dispensaries, and on repairs to dharmsháláš, chávdis, dispensaries and travellers' bungalows.

STATEMENT IV.

25. This statement shows details of works undertaken for the improvement of sanitation. The subjoined table shows the total expenditure incurred under the different heads in each district of the Division:—

26. The largest expenditure on the improvement of water-supply was incurred in the Sátára District and the smallest in Poona. The subject is one deserving of the greatest consideration, and the Collector of Ahmednagar writes :—

"Looking to the uncertain state of rain in this district, the money spent on the improvement of water-supply is not as large as it should be, while experience shows that one year of good rainfall is followed by a series of scanty, and the water-supply becomes precarious in several parts of the district."

Improvements in village sites were effected in the Ahmednagar and Sholápur districts only. In the former, the expenditure on this acccount was incurred in the removal of the prickly-pear and rank vegetation in 16 villages and in the latter it was incurred in the execution of repairs to roads and gutters in the town of Mádha. An advance of Rs. 200 was made in the Poona District for sanitary arrangements at Vehergaon, in the Mával Táluka, where a fair is annually held in the hot season. An expenditure of Rs. 511-9-2 was incurred in the same district on charges for water supplied by the Irrigation Department at Dhond and Ghorpuri. Rs. 905-14-0 were spent in the Sholápur District on sweeping and cow-dunging dharmshálás. In Násik, the District Local Board spent Rs. 95-9-9 on account of pay and batta of a medical man employed by the Board during the prevalence of cholera in certain tálukas. The Táluka Local Board of Dindori also spent Rs. 14-12-0 on epidemic charges, and that of Nándgaon Rs. 50 in purchasing medicines for gratuitous distribution, there being no dispensary in the táluka.

27. As required by paragraph 3 of Government Resolution No. 779, dated 30th January 1890, I submit communications, as per margin, from the Executive Engineers in the Central Division forwarding notes of the original cost, mileage and present condition of all Local Fund roads in their charges.

Ahmednagar—No. 5915, dated 6th October 1890.
Khándesh—No. 5411, dated 27th do.

28. There is a want of uniformity on the part of Collectors in filling in the statements and furnishing explanatory notes. To secure it, some general directions, especially as regards the exact scope of the head "Other objects calculated to promote the safety, health, comfort and convenience of rural population," occurring in Statement IV, seem desirable. This is, however, the first year for which the reports have been submitted.

29. The delay in the submission of this report is chiefly due to the non-receipt of the report from the Násik District until the 25th ultimo. In some instances, it was necessary to return, for further particulars, reports received in proper time. Next year it is hoped the requisite punctuality will be attained.

I have the honour to be,

Sir,

Your most obedient Servant,

G. F. M. GRANT,
Commissioner, C. D.

No. 3933 of 1890.

From

ALFRED KEYSER, Esquire,
Acting Commissioner, S. D.;

To

JOHN NUGENT, Esquire,
Chief Secretary to Government,
Revenue Department, Bombay.

Belgaum, 18th October 1890.

Sir,

I have the honour to submit the Administration Report on the working of the Local Boards in the Southern Division for the year ending 31st March 1890, together with the statistical tables Nos. I to IV in the forms prescribed by the Government of India.

2. The following table gives the dates of receipt of reports from Collectors and of their final replies to references made for further information or explanation :—

District.	Date of receipt of report.	Date of receipt of final reply.
Belgaum	5th September 1890 ...	1st October 1890.
Dhárwár	19th do. ...	6th do.
Bijápur	11th do. ...	29th September 1890.
Kánara	19th do. ...	29th do.
Ratnágiri	25th August 1890 ...	29th do.
Kolába	11th do. ...	23rd do.

Statement I.

3. Statement No. I gives the strength of each Local Board, the number of meetings held, and the average attendance at each.

4. The total number of Boards was, in the previous year, 55, *i.e.*, 6 District and 49 Táluka Local Boards. Constituted under Bombay Act I of 1884, they began their first triennial term in April 1885. The elective franchise has been conferred on all of them, except in the 6 cases* noted in the margin, where it has been withheld, owing to the backward social condition of the people.

Constitution of Boards.

Kánara District.
- * Honávar.
- Ankola.
- Siddápur.
- Sirsi.
- Yellápur.
- Supa.

The constitution of these 6 Boards is regulated by Government Notification No. 8376 of 24th October 1884 published under Section 7 of the Local Boards Act.

The second triennial elections were held in 1888. In the subjoined table the aggregate strength of the Boards, as it stood during the year, has been classified for each district :—

District.	*Ex-officio.*	Nominated.	Elected.	Total.	Officials.	Non-officials.	Europeans or Eurasians.	Natives.
Belgaum ...	...	74	62	136	46	90	9	127
Dhárwár ...	...	111	99	210	40	170	7	203
Bijápur ...	...	79	67	146	36	110	10	136
Kánara ...	15	66	24	105	22	83	11	94
Ratnágirí ...	...	85	75	160	31	129	10	150
Kolába ...	...	62	55	117	26	91	8	109
Total ...	15	477	382	874	201	673	55	819

5. The provisions of the law regarding the holding of half-yearly meetings were complied with by all the District Boards. The largest number of general meetings was held in Ratnágiri. The average attendance was very satisfactory in Kolába; good in Belgaum, Dhárwár and Ratnágiri; fair in Bijápur, and indifferent in Kánara. For this last district special dates have been fixed by Government Resolution No. 5095 of 28th July 1888 for the convenience of members; but there seems to have been no improvement. The laxity is attributed to the long distances to be traversed and local difficulties of communication; the topographical condition of the country with its dense forest and sparsely scattered agricultural population is enough to fully account for it.

The number of, and average attendance at, meetings.

6. Of the Táluka Local Boards those of Gokák and Navalgund held the largest number of meetings, while Bágevádi held only one. The average attendance was fairly satisfactory, except at Chikodi, Bágevádi, Muddebihál and Supa.

STATEMENT II.

7. The income of the Local Boards, excluding the opening balances, amounted to Rs. 10,52,038-13-5 during the year under report. The following table shows the receipts of the Local Boards, district by district, under the several heads of income for the year :—

The Local Fund cess thus contributes 56·1 of the revenue; Civil Works (chiefly made up of tolls and ferries) 11·7 per cent.; Contributions (chiefly from Provincial Funds towards Education) 21·7 per cent.; Education (chiefly fees) 6·4 per cent.; and the remaining sources about 5 per cent. between them.

8. *I.—Land Revenue.*—The receipts under this head for the whole Division amounted to Rs. 13,504-3-2. The revenue was derived chiefly from fees for permission to remove sand or to quarry. Nearly 70 per cent. of the divisional total was realized in Kolába, where there seems to have been a great demand for quarrying, and the sand fees always provide a material source of revenue.

9. *VI.—Provincial Rates.*—The revenue under this head is composed of the net proceeds of the one-anna cess levied under the Bombay Local Funds Act, 1869, which amounted to Rs. 5,91,132-0-1.

The table below shows the percentage of these receipts to the total income of the Local Boards in each district, and the incidence of the one-anna cess per head of population :—

10. *XII.—Interest and XIII.—Post Office.*—There were no receipts under these heads.

11. *XVII.—Police.*—The total receipts under this head amounted to Rs. 19,379-13-5, of which Rs. 19,307-5-5 were realized under the Cattle Trespass Act, and Rs. 72-8-0 under Bombay Act VIII of 1866. In Siddápur, Vengurla, Rájápur and Khed, the expenditure during the year exceeded the receipts from cattle pounds by Rs. 114-15-9, 40-15-9, 6-11-0, 1-4-11 respectively.

Net receipts from cattle pounds.

The sum of Rs. 72-8-0 realized under Bombay Act VIII of 1866 was credited to the Táluka Local Boards, named in the margin, in the sums respectively shown against them.

12. *XIX.—Education.*—The income under this head amounted to Rs. 65,110-9-10, and was made up of—

(*a*) Fees from boys attending Local Board primary schools amounting to Rs. 53,323-14-11.

School-fees.

(*b*) Rs. 1,441-5-3, contributed by private persons towards the charges of maintenance of Local Board primary schools, or towards the purchase of furniture, books, &c., required for such schools.

Miscellaneous educational receipts.

13. *XX.—Medical.*—The receipts under this head amounted to Rs. 99-2-4 only. The sum of Rs. 15-7-9, credited to the District Board of Bijápur, represents recoveries of over-payments to Local Fund vaccinators on account of pay and contingencies. The insignificant sum of Rs. 1-15-0 appearing in Kánara is the price of a lancet recovered from a vaccinator. The receipts in Kolába include the amount paid by the Municipalities of Uran, Pen and Alíbág to meet the pay of a vaccinator jointly employed by those bodies; and the sale-proceeds of medicines. In the other districts, there were no receipts during the year under report.

14. *XXI.—Scientific and Other Minor Departments.*—To this head, Rs. 542-1-6 were credited during the year, having been realized as follows:—

(*a*) Rs. 229-5-6, the sale-proceeds of the produce of the agricultural farm at Belgaum, transferred to the District Local Board by Government Resolution (Educational Department) No. 627 of 28th March 1889.

(*b*) Rs. 167-12-0 realized from the sale of two unserviceable bull-stallions belonging to the District Local Board of Belgaum.

(*c*) Rs. 145, the sale-proceeds of the Government stallion at Bijápur, which had become unserviceable.

15. *XXII.—Receipts in aid of Superannuation Allowances, &c.*—There were no receipts under this head during the year under report.

16. *XXV.—Miscellaneous.*—The receipts under this head amounted to Rs. 3,319-3-2. The sale of old and unserviceable stores fetched Rs. 287-10-1; fees for the use of staging bungalows yielded Rs. 368; and receipts from miscellaneous items amounted to Rs. 2,663-9-1.

17. *XXVI.—Railways; XXX.—Irrigation.*—There were no receipts under these heads during the year.

Ferries.

(*b*) Of Rs. 634-14-0 entered under the sub-head "Rent of buildings and lands," Rs. 621-14-0 was derived from rent on Local Fund land in the Kumpta Táluka and Rs. 13-0-0 from rent levied on Local Fund buildings at Dharamtar, in the Kolába District, let to shopkeepers.

Rent.

(*c*) Tolls on roads, &c., yielded Rs. 49,843-11-10, the largest receipts being in the Dhárwár District. It may be mentioned that *net* receipts only from tolls on roads, as well as ferries, are credited to Local Funds.

33. It will be observed that while the District Board of Dhárwár devoted 46 per cent. of its total expenditure to public works, that of Ratnágiri could not spare more than 15 per cent., mainly for the reason that it has to make large payments every year in liquidation of the Amba Ghát loan, as well as on account of the telegraph guarantee, the Leper Asylum and the School of Industry.

34. As regards the Táluka Boards, those in the Kolába District show small percentages, but it is due to the total expenditure on which it is calculated being inclusive of the contributions made by the Táluka Boards to the District Board.

Civil buildings.

35. As regards expenditure on civil buildings, it may be classified under two heads:—

(1) Original construction and repairs of educational buildings.

(2) Do. do. of buildings other than educational.

36. The following statement gives for each district details as to educational buildings executed by the Civil and the Public Works Department Agency:—

It will appear from the above that in all 33 school-houses were built during the year at a total cost of Rs. 17,632-11-10. The repair charges on account of existing school-houses amounted to Rs. 10,796-7-6.

37. In addition to the above, the following original buildings were constructed during the year:—

39. Out of the new roads made the following deserve special mention :—

District.	Name of Road.	Amount expended during the year.
		Rs. a. p.
Belgaum	(1) A Railway feeder road from Bágevádi to Bailhongal	7,144 8 10
Dhárwár	(2) Navalgund-Annigeri road	13,016 14 8
	(3) Portion of Palla-Bádámi road (between Miraj State and Bankápur)	14,688 15 3
Kolába	(4) Road from Salao to Korlai	2,054 0 0
	Total ...	36,904 6 9

The remaining Rs. 24,011-8-0, out of the total of Rs. 60,915-14-9, was spent on petty roads of which neither the names nor the length are specified in the Collectors' reports.

40. In all three districts, through which the Southern Marátha Railway passes, the want of feeder roads is still much felt, and it is impossible for the Local Funds to do more than make inadequately slow progress towards meeting it.

41. The notes of the Executive Engineers, giving the original cost, mileage and their opinions on the present condition of all Local Fund roads in their respective charges, required by paragraph 3 of Government Resolution No. 779 of 30th January 1890, will be found embodied in detail in Appendix V. A summary of it is given below :—

Appendix V.

Belgaum.—The total length of the seven roads in charge of the Executive Engineer is 213 miles. Kágvád to Athni and Gotur to Tásgaon (total length 71 miles) are mere fair-weather roads. The road from Sankeshvar to Hukeri (length 9 miles) is reported to be in a bad condition. The other roads (length 133 miles) are in a fairly good condition.

Dhárwár.—There are 11 roads in charge of the Public Works Department, of the aggregate length of 333 miles. The Collector speaks of them generally in the following terms :—

"The Dhárwár District is full of excellent made roads, the importance of which has much increased since the opening of the Southern Marátha Railway, which has necessitated the construction of several feeder roads to connect the main roads with the railway lines. All the roads in the district are generally in good repair, and the fact speaks highly of the interest taken by the District and Táluka Local Boards and the Public Works Department in their maintenance."

From the Executive Engineer's remarks (*vide* Appendix V), the following roads would seem to have been in bad condition, requiring thorough repairs :—

	Length in miles.
1. Pálla-Bádámi road	78
2. Tadas-Gundi road	34½
3. Harihar-Samasgi road	51¼
4. Tadas-Kargad road	15¼
5. Dhárwár-Halliyál road	17
	196

Bijápur.—In this district there are five roads in charge of the Executive Engineer, of the total length of 92½ miles. All but the Bijápur-Sindgi road are spoken of as in good order.

Bijápur-Sindgi road, 35½ miles. The Executive Engineer speaks of this road in the following terms :—

This is a district road not raised. It is a most important road carrying very heavy traffic from the east to Bijápur Railway Station. It is not well lined out, it has a soft muram surface, which is much cut up by country carts. The waterways are not in good order. If this could be turned into a provincial road with an annual grant of about Rs. 10,000, the road would be made good in a few years. The Local Fund cannot afford to keep so important a road in good order."

Kánara.—There are only two roads in this district in charge of the Executive Engineer; their length being only 95 miles. Both are fair-weather roads, kept up in a tolerably fair condition.

Kolába.—Of the five roads in charge of the Executive Engineer, three (aggregate length $7\frac{19}{20}$ miles) are reported to be in good order, and two ($22\frac{1}{4}$ miles long) in a fair condition.

Ratnágiri.—No Local Fund roads in this district are in charge of the Public Works Department.

* This includes Rs. 48 on account of the pay of a watchman placed over the Naranji water-work in the Kolába District.

Water-works.

54. Out of the total sum of Rs. 85,046-6-5, Rs. 23,183-10-9 was spent on the improvement of the existing sources of water-supply. The rest (Rs. 61,814-11-8) was expended on the construction of tanks and wells, as detailed below :—

District.	Number of Tanks dug.	Number of Wells sunk.	Amount spent.
			Rs. a. p.

Except in Belgaum and Kánara, the proportionate expenditure on the construction of new wells, &c., is, considering the many calls on Local Funds, fairly satisfactory.

General Remarks.

55. The following table shows the proportion of their expenditure which the several Boards in each district contributed during the year under review to educational and medical objects, and to public works respectively:—

56. From the above table it will be observed

(*a*) that the percentage of expenditure on public works is highest in Dhárwár, the richest district in the Division, *i. e.*, 59·8,

and

(*b*) that the expenditure (55 per cent.) on educational objects has been proportionately highest in the Ratnágiri District, whose District Board is financially the worst off in the Division. The expenditure may be taken to meet the wishes of the leading inhabitants, the high-caste population of the district being relatively numerous.

57. I think that the conclusion to be derived from the statistical account given above is that the funds at the disposal of the Boards are, on the whole, economically and usefully administered. It is difficult for any one, who has not had actual experience of the administration of a district, to appreciate the difficulty, with the funds at the disposal of the Boards, after meeting the fixed demands of Government, to find money to keep up existing communications and to provide for new roads, called for by the opening (as in the country traversed by the Southern Marátha Railway) of fresh lines of traffic. It is satisfactory to find that something is being done in the latter direction; but without material aid from other sources it will not, as remarked above, be feasible to make sufficient progress to satisfy even the most urgent demands of the several districts above ghâts.

I have the honour to be,
Sir,
Your most obedient Servant,
ALFRED KEYSER,
Acting Commissioner, S. D.

No. 3355 OF 1890.

REVENUE DEPARTMENT.

FROM

A. C. TREVOR, ESQUIRE, C.S.,
Acting Commissioner in Sind ;

To

HIS EXCELLENCY THE RIGHT HONOURABLE
GEORGE ROBERT CANNING, BARON HARRIS, G.C.I.E.,
Governor and President in Council, Bombay.

Commissioner's Office,
Karáchi, 26th September 1890.

MY LORD,

With reference to the correspondence ending with my No. 1647 of 20th May last, I have the honour to submit the Local Board Administration Report for the year 1889-90 together with statistical tables Nos. I to IV prescribed by the Government of India,* compiled for the whole Province in this office.

* *Vide* their letter No. 41—3122 of 8th December 1888, embodied in Government Resolution No. 779 of 30th January 1890, in the Revenue Department.

2. The subjoined table shows the dates on which the several reports reached my office and also the dates of final replies to references subsequently made for further explanation :—

	Date of receipt of report.	Date of receipt of final reply.
Karáchi	2nd July 1890	3rd September 1890.
Hyderabad	30th June 1890	2nd do.
Shikárpur	20th August 1890 ...	5th do.
Thar and Párkar	21st do. ...	30th August 1890.
Upper Sind Frontier	2nd July 1890	3rd September 1890.

It will be seen that the last corrected report was received on the 5th instant.

3. There has been some delay in the preparation of the reports in the Presidents' offices, which is mainly due to the additions and alterations in Forms II and III introduced by the Bombay Government Resolution No. 4686 of 5th July 1890 and No. 5325 of 29th July 1890 (Revenue Department) which rendered it necessary to recast the reports and forms which had already been prepared.

STATEMENT I.—CONSTITUTION OF BOARDS AND MEETINGS.

4. Statement No. 1 shows the constitution of the different District and Táluka Local Boards, also the areas and the population with which they deal, the number of meetings held, and the average attendance at each meeting.

5. With regard to the constitution of the Boards, all that needs be said is that the system of local self-government introduced by the Local Boards Act of 1884 was extended to the Karáchi, Hyderabad and Shikárpur Districts in its entirety, and consequently the Boards in these districts consist of elected and nominated members. But the introduction of the elective system into the Thar and Párkar and the Upper Sind Frontier Districts was considered inexpedient owing to their backward condition. The Boards in these two districts were therefore constituted under the orders contained in Government Resolution No. 1293 of 12th February 1885 and No. 9547 of 3rd December 1884, respectively.

6. The number of meetings of all kinds held during the year under report was 388. The average attendance has been generally good except at meetings held in the Hyderabad District where the poorness of the attendance is attributed to want of interest on the part of the non-official members of the Boards. The Collector and President has been requested to draw the attention of the non-official members to the irregularity of their attendance, and it is hoped that next year there will be some improvement. The small attendance at meetings held at Ghorábári and Sháhbandar and Jati Táluka Boards is explained by the Collector and President to be chiefly due to long distances between the head-quarters of the Boards and the residences of the members.

STATEMENT II.—INCOME.

7. The headings in this statement are so very clear that it is not necessary to make any very lengthy comments. The following brief notes explanatory of the figures in the different columns in the statement will, I trust, be found sufficient.

I.—Land Revenue.

8. During the year under report Rs. 1,655-8-4 were realized on account of the sale-proceeds of road-side trees, fruit, &c., in the several districts in the Province of Sind.

VI.—Provincial Rates.

9. The total realizations under this major head amount to Rs. 5,34,326-3-3. These are composed of—

	Rs.	a.	p.
(1) Local rate	4,17,905	3	6
(2) Sand and Quarry fees	16,343	0	0
(3) Fishery fees	1,00,007	15	9
(4) Fees for poisonous drugs	70	0	0

10. Out of Rs. 4,17,905-3-6 under "(1) Local rate," the net receipts for the Karáchi District amount to Rs. 65,825-2-0, which consist of Rs. 63,191-14 0 on account of the One-anna Cess and Rs. 2,633-4-0 on account of Jághir Cess. The whole of the One-anna Cess levied within municipal limits is assigned to the Municipalities concerned, under Section 47 of the Local Boards Act, 1884, excepting in the case of the Karáchi Municipality which receives only $\frac{2}{3}$rds of the cess. One-third of the One-anna Cess levied out of municipal limits and $\frac{1}{3}$ths of Jághir Cess, *viz.* Rs. 20,635-7-4 and Rs. 1,053-4-6, respectively, were assigned to Educational purposes, leaving Rs. 43,245-3-6 at the disposal of the Táluka Boards. Out of the latter sum the Boards contributed Rs. 6,100 towards certain Educational objects and the amount was transferred to the credit of the District Board "Educational" for payment: the net balance at the credit of the Boards therefore amounted to Rs. 37,145-3-6 only.

11. The net receipts under "(1) Local rate" in the Hyderabad District amount to Rs. 1,15,592-5-0 and those (*a*) in the Shikárpur District to Rs. 1,60,805-2-6; (*b*) in the Thar and Párkar District to Rs. 30,690-8-0, and (*c*) in the Upper Sind Frontier District to Rs. 44,992-2-0: these figures represent realizations on account of the One-anna Cess on land and Jághir Cess.

12. In the Hyderabad District report the transactions between the District Local Board and the Táluka Boards have been shown in red figures. As these merely represent account adjustments they have been omitted from the consolidated statement in order that there may be uniformity in the manner in which receipts are shown in all the districts.

13. The realizations under Sand and Quarry fees, Fishery fees and Fees on account of poisonous drugs, call for no comment.

XII.—Interest.

14. A sum of Rs. 649-5-2 was realized on account of interest on "Dispensary securities" and represents interest on the closing balance of ten defunct minor Municipalities in the Thar and Párkar District which were abolished in

1878. The balances were made over to the Local Funds, on the condition that the latter would defray expenditure on certain specified objects.

XVII.—Police.

15. The net receipts under the "Cattle Trespass Act" for the Province amount to Rs. 22,456-12-2. The cattle-pounds in every district of the Province of Sind are under the management of the District Magistrate. In the first instance the expenses are defrayed from and the receipts credited to Provincial Funds and the surplus balance, if any, is assigned to Local Funds. When the expenditure exceeds the receipts, the excess is adjusted by means of minus entries in red ink against the other receipts of the Board. Under an arrangement sanctioned by the Accountant General in his Circular No. 6, dated 30th January 1885, and Consolidated Circular No. K. of 2nd March 1886, the Local Boards are entitled to surplus proceeds, and it is questionable whether the excess of expenditure over receipts should be made good by the Boards. But if it should be so, a column in Statement III (Expenditure) should be provided to show expenditure under this head.

XIX.—Education.

16. The amount realized under "Middle Schools" was Rs. 244-13-0 in the Hyderabad District and that under "Primary Schools" Rs. 1,337-8-2, as per details subjoined:—

	Rs.	a.	p.
Karáchi District	666	12	2
Hyderabad do.	123	7	0
Shikárpur do.	545	5	0
Thar and Párkar District	2	0	0
	1,337	8	2

The above figures represent fees on account of Local Board schools, except the sum of Rs. 2 realized in the Thar and Párkar District, which was an examination fee levied under the Provincial Scholarship Rules.

17. The amount received in *contributions* was Rs. 3,500, distributed between Karáchi District Rs. 500, Hyderabad District Rs. 3,000.

The sum of Rs. 500 was contributed by the Karáchi District Board "General" and transferred to the District Board "Educational" out of the ferry receipts for payment of the supplementary grant to the "Karáchi Library and Museum;" while the sum of Rs. 3,000 was paid by the Hyderabad District Board "General" to "Educational" for the maintenance of certain technical and special schools.

18. The sum of Rs. 320-13-2 under "Miscellaneous" represents the sale proceeds of old and unserviceable articles of dead stock, &c.

	Rs.	a,	p.
Karáchi District	190	11	1
Hyderabad do.	123	14	1
Shikárpur do	5	0	0
Upper Sind Frontier District	1	4	0
	320	13	2

XX.—Medical.

19. The receipts under this head are of a miscellaneous nature and amounted to Rs. 13-12-7 for the whole Province of Sind, and need no comment.

XXI.—Scientific and other Minor Departments.

20. The total realizations amount to Rs. 11,264-7-6, and are made up as follows:—

The greater portion of these receipts, viz., Rs. 7,435-14-11, belongs to the Hyderabad District, and the items of which this sum is composed are shown in the margin.

XXV.—Miscellaneous.

21. The total receipts under this head amount to Rs. 5,425-14-0. Of this, Rs. 806-10-2 were realized from the "*Sale of old stores and materials*" and Rs. 2,913-1-4 on account of "*Staging Bungalow fees*" as per details subjoined :—

The details of the important new works undertaken and completed and repairs executed have been given by the several Presidents in the body of their respective reports. Most of the money was spent in maintaining roads and bridges.

Contributions.

To Provincial.

42. Rs. 415 have been shown under this head. This represents the amount paid by the Karáchi District Board to Provincial Funds for repairs to the Bago Toro road under the Laki pass.

To other Boards.

43. The following are the figures shown under this column for each district:—

	Rs.	a.	p.
Karáchi	808	9	8
Hyderabad	1,201	5	0
Shikárpur	1,025	0	0
Thar and Párkar	100	0	0
Upper Sind Frontier	1,000	0	0
Total ...	4,134	14	8

The figures under Karáchi, Hyderabad and Shikárpur represent the amounts assigned to Municipalities under Section 47 of the Local Boards Act on account of cess levied within municipal limits, whilst those under Thar and Párkar and Upper Sind Frontier Districts, respectively, show the grant to the Karáchi Library and Museum and the contribution to the Shikárpur Board in connection with the Sind Horse Show. The grant to the Museum should not have been entered here; the Deputy Commissioner will be informed that its proper place is column "Grant-in-aid," subordinate to "*22.—Education.*"

Debt.

44. The district reports show a sum of Rs. 8,900 under this head, of which Rs. 2,100 represent the amount of permanent advance held by the Táluka Local Boards in the Shikárpur District. This amount forms part of the balance and there is no occasion to show it separately. The remainder Rs. 6,800 is made up of advances made by the District Local Boards to the Táluka Local Boards in the Hyderabad District and recovered within the year except a balance of Rs. 50 which remained unadjusted. It is unnecessary to complicate the statements by showing such transactions which have no effect upon the true receipts and expenditure. These corrections have been made in the consolidated statement for the Province which has been prepared in this office.

Balances.

45. The expenditure in Karáchi and Hyderabad District Boards has been less than their income. The Shikárpur and Upper Sind Frontier Boards have been largely drawing on their accumulated balances to defray expenditure upon new works. The excess of expenditure over receipts in the Thar and Párkar District has been explained by the Deputy Commissioner in the following way:—

"Failure of crops in the desert led to very large remissions and postponement of revenue, in consequence of which the Local Fund revenue of the Párkar Board, which was estimated at Rs. 2,302, was actually Rs. 735-9-7 only. This and the necessity to maintain small relief works resulted in the minus balance shown against that Board."

46. The attention of the several Boards which show large closing balances to their credit has been drawn to the necessity for making arrangements for carrying out works of public utility which are needed in the different districts. The balance in the Hyderabad District has apparently been allowed to accumulate in order that the Board may be in a position to make a promised contribution of Rs. 1,50,000 towards the construction of the Hyderabad-Umarkot Railway.

STATEMENT IV.

47. This statement shows the new tanks and wells dug or sunk and other sources of water-supply repaired by each Board, and requires no comment. It is

apparent that each Board in the Province is doing useful work to promote sanitation within the area under its charge. The Collector of Karáchi reports that the cost of medicines, &c., purchased during the prevalence of cholera and other epidemic diseases in the district has been shown under "Other objects calculated to promote the safety, health, comfort and convenience of rural population."

48. There are no Local Board roads in charge of Executive Engineers in this Province. No notes from those officers have therefore been sent as required in paragraph 3 of Government Resolution No. 779 of 30th January 1890 in the Revenue Department.

49. The reports from the several Collectors and Presidents of District Boards in the Province of Sind are attached.

I have the honour to be,
My Lord,
Your Lordship's most obedient Servant,
A. C. TREVOR,
Acting Commissioner in Sind.

Memorandum from the Commissioner, C. D., No. R.—5365, dated 18th November 1890.

Memorandum from the Commissioner, N. D., No. 1184, dated 24th March 1891.

RESOLUTION.—The elective system was in force during the year under report throughout the Presidency with the exception of the Panch Mahâls, Thar and Párkar and Upper Sind Frontier Districts, one táluka of Násik and six tálukás of Kánara, in which the social condition of the people was too backward to admit of the extension of the franchise. In ten districts the average attendance at meetings exceeded 50 per cent. of the number of members, and in the thirteen other districts it fell very little short of that figure. These results are satisfactory considering that many of the members must live at considerable distances from the places of meeting, and therefore a very high average of attendance cannot be expected as in the case of Municipalities.

2. The funds at the disposal of the various Local Boards are shown in the subjoined table:—

	Opening balance.	Income.	Total.
	Rs.	Rs.	Rs.
Northern Division...	6,97,419	11,56,435	18,53,854
Central do.	6,26,730	12,74,953	19,01,683
Southern do.	7,09,933	10,52,039	17,61,972
Sind...	4,54,356	7,07,030	11,61,386
Total ...	24,88,438	41,90,457	66,78,895

The Commissioner, N. D., has given only district totals in Statements II and III. In future details should be given for District and Táluka Local Boards separately, as the Government of India require the information regarding each Board. In the Southern Division under the head "Contributions (from other Boards)" a sum of Rs. 63,984 is credited. This is explained to consist of sums transferred from District to Táluka Boards and *vice versâ* to make up deficit balances, but under this practice it appears that each of the items forming the sum has been credited twice, once to the Board to which it originally accrued and again to the Board to which the transfer was made. This procedure may

be necessary as a matter of account routine but care should be taken in future to exclude these transactions from Statements II and III, as otherwise the figures of income and expenditure will not correspond with the actuals and will give an erroneous idea of the extent of the transactions of the Boards. The Commissioner, S. D., should be asked to explain the item of Rs. 6,699 referred to in paragraph 20 of his report, as a comparison of Statements II and III does not show from what Boards it was recovered.

3. The expenditure and closing balances are shown below:—

	Expenditure.	Closing balance.
	Rs.	Rs.
Northern Division	11,71,258	6,82,596
Central do.	12,09,294	6,92,389
Southern do.	9,72,396	7,89,576
Sind	6,79,828	4,81,480
Total ...	40,32,776	26,46,041

The figures for Ahmedabad, Surat and Kaira under the head "balance" are erroneous and it seems that the amount of "deposits" in the case of the two former districts has been included in the "actual balance" and has thus been reckoned twice. Out of the total expenditure the amount spent on education was Rs. 12,90,679 and on civil works Rs. 20,40,796, the latter item including a sum of Rs. 2,88,310 for water-supply. The expenditure of Rs. 161 on cattle-pounds in Kánara is not understood and should be explained. The large closing balances are necessary in order to prevent the Boards overdrawing their accounts with Government.

4. The amounts spent on sanitation are shown below:—

	Improvement of water-supply.	Improvement of village sites, &c., including removal of rank vegitation.	Sanitary arrangements at fairs and festivals.	Conservancy of towns and villages.	Other objects calculated to promote the safety, health, comfort and convenience of rural population.
	Rs.	Rs.	Rs.	Rs.	Rs.
Northern Division	1,36,665	3,448	...	11,963	...
Central do.	63,057	704	200	...	1,578
Southern do.	85,046	785	...	416	416
Sind	32,482	42	420	401	491
Total ...	3,17,250	4,979	620	12,780	2,485

The figures show that more attention has been paid to this subject in the Northern Division than in any of the other divisions. The Commissioner in Sind remarks that each Board in that Province is doing useful work to promote sanitation but the figures of expenditure do not altogether bear out this statement.

5. The year under review being the first for which reports were submitted, some differences were to be expected in the mode of classification of items of income and expenditure. With a view to secure uniformity in future, the following instructions are given in regard to items about which there seems to be some doubt. In Statement II all receipts from revenues assigned under Section 44 of the Act, except those for which special columns are provided, should be credited under the head "Contributions (Provincial to Local)." "Produce of fruit trees" which has been entered in the Southern Division as a sub-head under "I—Land Revenue" should appear as a sub-head under "XXV—Miscellaneous." Government are of opinion that in Statement IV only such works should be entered in columns 22 and 23 as are of a permanent nature. Epidemic charges should not be entered and such charges as cowdunging and sweeping dharmshálás are obviously out of place.
